MP3-CD playback

CD player capable of playing MP3 files from CD-ROM.

8cm & 12cm CD compatible

Plays CDs of the new 8cm format as well as the standard 12cm format.

CD-Rewritable compatible

CD player capable of playing all music CDs, including CD-Recordable and CD-Rewritable discs.

Blue backlight LCD display

The Backlit Display remains easy to read even when the ambient light level is low.

10-character MP3-CD text display

Displays CD player information (artist, title, album, track, time, play mode), tuner information (RDS (Europe only), preset station, frequency, stereo reception) and battery low.

UltraBass 2

A technology unique to Philips that provides deep bass sounds previously reproduced only by much bigger loudspeakers.

Digital bass & treble controls

Allows you to set your personal listening preferences for bass and treble frequencies without the restriction of factory pre-sets.

Digital tuner with 30 station presets

Provides fast, accurate tuning to your favourite stations. You can store up to 30 FM and MW stations in memory for fast, easy access.

Autostore presets

Automatic programming of strongest available radio stations.

Sleep timer

Automatically switches the set to stand-by mode after the selected time.

MP3-CD album navigation

Gives the possibility to skip between albums, enabling easier navigation of MP3-CDs.

Jog control

Intuitively combines responsive high-speed setting changes and super-accurate setting changes.

Sound control center

All sound controls conveniently grouped together.

Incredible surround

Creates the illusion of the speakers being further apart than they actually are, resulting in an enhanced, room-filling stereo effect.

Two-way speakers

Provides higher musical clarity and enhanced stereo sound quality.

Bass reflex speaker system

Acoustic system that enhances the upper bass tones to provide a warmer, punchier bass sound.

20-track CD programmable

Stores up to 20 of your favourite CD tracks for playing back in your order of preference.

Repeat one/ all/ program

Repeats the current track, the total CD, or your pre-selected program.

Shuffle play

Plays all selections on a disc in random order, giving you a new sequence of tracks every time.

20-key remote control

Fully featured remote control for convenient operation of CD, volume and tuner controls.
