Important notes for users in the U.K.

Mains plug
This apparatus is fitted with an approved 13 Amp plug. To change a fuse in this type of plug proceed as follows:
1. Remove fuse cover and fuse.
2. Fix new fuse which should be a BS1362 5 Amp, A.S.T.A. or BSI approved type.
3. Refit the fuse cover.
   If the fitted plug is not suitable for your jack outlets, it should be cut off and an appropriate plug fitted in its place.
   If the mains plug contains a fuse, this should have a value of 5 Amp. If a plug without a fuse is used, the fuse at the distribution board should not be greater than 5 Amp.
   Note: The severed plug must be disposed of to avoid a possible shock hazard should it be inserted into a 13 Amp jack elsewhere.

How to connect a plug
The wires in the mains lead are coloured with the following code: blue = neutral (N), brown = live (L).
- As these colours may not correspond with the colour markings identifying the terminals in your plug, proceed as follows:
  - Connect the blue wire to the terminal marked N or coloured black.
  - Connect the brown wire to the terminal marked L or coloured red.
  - Do not connect either wire to the earth terminal in the plug, marked E (or $) or coloured green (or green and yellow).

Before replacing the plug cover, make certain that the cord grip is clamped over the sheath of the lead - not simply over the two wires.

Copyright in the U.K.
Recording and playback of material may require consent. See Copyright Act 1956 and The Performer's Protection Acts 1958 to 1972.

CAUTION
Use of controls or adjustments or performance of procedures other than herein may result in hazardous radiation exposure or other unsafe operation.

VAROITUS

**DK**

**Advarsel:** Usynlig laserstråling ved åbning når sikkerhedsafbrydere er ude af funktion. Undgå utsættelse for stråling.

**Bemærk:** Netafbryderen er sekundært indkoblet og ofbryder ikke strømmen fra nettet. Den indbyggede netdel er derfor tilsluttet til lysnettet så længe netstikket sidder i stikkontakten.

**SF**

**Luokan 1 laserlaitte**

**Varning!** Om apparaten används på annat sätt än i denna bruksanvisning specificerats, kan användaren utsättas för osynlig laserstrålning, som överskrider gränsen för laserklass 1.

**Observera!** Stömbrytaren är sekundärt kopplad och bryter inte strömmen från nätet. Den inbyggda nätdelen är därför ansluten till elnätet så länge stickproppen sitter i vägguttaget.

---

**Due to the inconsistency of disc formats provided by various disc manufacturers, your DVD system may require a playability enhancement or upgrade. As DVD technology advances, these enhancements will become common and will be easy to complete.**

**Go to www.p4c.philips.com for software upgrade.**

---

**The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on apparatus.**

---

**‘CONSUMERS SHOULD NOTE THAT NOT ALL HIGH DEFINITION TELEVISION SETS ARE FULLY COMPATIBLE WITH THIS PRODUCT AND MAY CAUSE ARTIFACTS TO BE DISPLAYED IN THE PICTURE. IN CASE OF 525 OR 625 PROGRESSIVE SCAN PICTURE PROBLEMS, IT IS RECOMMENDED THAT THE USER SWITCH THE CONNECTION TO THE ‘STANDARD DEFINITION’ OUTPUT. IF THERE ARE QUESTIONS REGARDING OUR TV SET COMPATIBILITY WITH THIS MODEL 525p AND 625p DVD PLAYER, PLEASE CONTACT OUR CUSTOMER SERVICE CENTER.’**
General Information

Environmental Information

All unnecessary packaging has been omitted. The packaging has been made easy to separate into three materials: cardboard (box), polystyrene foam (buffer) and polyethylene (bags, protective foam sheet).

Your DVD player consists of materials which can be recycled and reused if disassembled by a specialised company. Please observe the local regulations regarding the disposal of packaging materials, exhausted batteries and old equipment.

Manufactured under license from Dolby Laboratories. "Dolby", "Pro Logic" and the double-D symbol are trademarks of Dolby Laboratories.

Laser safety

This unit employs a laser. Due to possible eye injury, only a qualified service person should remove the cover or attempt to service this device.

NOTE: PICTURES SHOWN MAY BE DIFFERENT BETWEEN COUNTRIES.

CAUTION (WARNING LOCATION: ON THE BACKPLATE OF THE SET)

NEVER MAKE OR CHANGE CONNECTIONS WITH THE POWER SWITCHED ON.

Important Note:

Due to the numerous versions of new CD-Audio copy protection or enhanced CD-Audio protection recently available on certain discs, Philips is unable to guarantee that this DVD Player is fully compatible with such new discs. Should you have difficulty playing any such CD-Audio discs, kindly refer them to your CD-Audio disc retailer.

DivX, DivX Certified, and associated logos are trademarks of DivXNetworks, Inc and are used under license.

This DVD player is in conformity with the EMC directive and low-voltage directive.

For Customer Use:

Read carefully the information located at the bottom of your DVD VIDEO player and enter below the Serial No. Retain this information for future reference.

Remote Control and two AA batteries

Care and safety information

● Power consumption
  – When the system is switched to Standby mode, it is still consuming power. To disconnect the system from the power supply completely, remove the AC power plug from the wall jack.

● Avoid high temperatures, moisture, water and dust
  – Do not expose the player, batteries or discs to humidity, rain, sand or excessive heat (caused by heating equipment or direct sunlight.)

● Avoid condensation problem
  – The lens may cloud over when the player is suddenly moved from cold to warm surroundings, making it impossible to play a disc. Leave the player in the warm environment until the moisture evaporates.

● Do not block the vents
  – Do not operate the DVD Player in an enclosed cabinet, allow about 10 cm (4 inches) of free space all around the player for adequate ventilation.

● Care of the cabinet
  – Use a soft cloth slightly moistened with a mild detergent solution. Do not use a solution containing alcohol, spirits, ammonia or abrasives.

● Finding a suitable location
  – Place the player on a flat, hard, and stable surface.

● Disc handling
  – To clean a CD, wipe it in a straight line from the center towards the edge using a soft, lint-free cloth. A cleaning agent may damage the disc!
  – Write only on the printed side of a CDR(W) and only with a soft felt-tipped pen.
  – Handle the disc by its edge, do not touch the surface.
Connections

Connecting TV

**IMPORTANT!**
- You only need to make one video connection from the following options, depending on the capabilities of your TV system.
- Connect the DVD system directly to the TV.
- RGB connection will let you use the features of both the Audio and Video in the DVD Player.

**Using RGB jack**

- Use the RGB cable (black) to connect the DVD Player’s RGB jack (TV OUT) to the corresponding Scart input jacks on the TV (cable not supplied).

**Helpful Hint:**
- Ensure that the “TV” indication on RGB cable is connected to the TV set and “DVD” indication on RGB cable is connected to the DVD Player.

**Using Composite Video jacks (CVBS)**

1. Use the composite video cable (yellow) to connect the DVD Player’s CVBS (VIDEO) jack to the video input jack (or labeled as A/V In, Video In, Composite or Baseband) on the TV (cable not supplied).

2. To hear the sound of this DVD Player through your TV, use the audio cables (white/red) to connect AUDIO OUT (L/R) jacks of the DVD Player to the corresponding AUDIO IN jacks on the TV (cable not supplied).
Connections

IMPORTANT!
– S-Video connection provides better picture quality. This option must be available on your TV.

Using S-Video jack

1. Use the S-video cable to connect the DVD system’s S-VIDEO OUT jack to the S-Video input jack (or labeled as Y/C or S-VHS) on the TV (cable not supplied).

2. To hear the sound of this DVD Player through your TV, use the audio cables (white/red) to connect AUDIO OUT (L/R) jacks of the DVD Player to the corresponding AUDIO IN jacks on the TV (cable not supplied).

IMPORTANT!
– Component Video connection provides higher picture quality. This option must be available on your TV.
– The progressive scan video quality is only possible through Component Video (Y Pb Pr) output.

Using Component Video jacks (Y Pb Pr)

1. Use the component video cables (red/blue/green) to connect the DVD system’s Y Pb Pr jacks to the corresponding Component video input jacks (or labeled as Pr/Cr Pb/Cb Y) on the TV (cable not supplied).

2. To hear the sound of this DVD Player through your TV, use the audio cables (white/red) to connect AUDIO OUT (L/R) jacks of the DVD Player to the corresponding AUDIO IN jacks on the TV (cable not supplied).
Connections

IMPORTANT!
- If your TV only has a single Antenna In jack (or labeled as 75 ohm or RF In,) you will need an RF modulator in order to view the DVD playback on the TV. See your electronics retailer or contact Philips for details on RF modulator availability and operations.

Using an accessory RF modulator
1. Use the composite video cable (yellow) to connect the DVD Player’s CVBS jack to the video input jack on the RF modulator.
2. Use the RF coaxial cable (not supplied) to connect the RF modulator to your TV’s RF jack.

After everything is connected properly, plug in the AC power cord to the power outlet.
Never make or change any connections with the power switched on.

When no disc is loaded, press STANDBY ON on the DVD Player front panel, “NO DISC” may appear on the display panel.

Connecting the power cord
Connections

Optional: Connecting to an Audio System

1. Select one of the video connections (CVBS VIDEO IN or RGB jack (TV OUT)) depending on the options available on your TV.

2. Use the audio cables (white/red) to connect AUDIO OUT (L/R) jacks of the DVD Player to the corresponding AUDIO IN jacks on the stereo system (cable not supplied).

3. Set the DVD Player’s Downmix to ‘STEREO’ for simple Right/Left AUDIO IN or ‘LT/RT’ for Dolby Pro Logic decoding (see page 25 “Downmix”).

Optional: Connecting Digital AV Receiver

1. Select one of the video connections (CVBS VIDEO IN or RGB jack (TV OUT)) depending on the options available on your TV.

2. Connect the COAXIAL or OPTICAL jack of the DVD Player to the corresponding Digital Audio In jack on your Receiver (cable not supplied).

3. Set the DVD Player’s Digital Output to PCM-ONLY or ALL depending on the capabilities of your Receiver (see page 25 “Digital Output”).

Helpful Hint:
- If the audio format of the Digital Output does not match the capabilities of your receiver, the receiver will produce a strong, distorted sound or no sound at all.
Functional Overview

Front and Rear Panels

- **STANDBY-ON**
  - To switch the DVD Player to Standby mode or ON

- **Disc tray**
  - OPEN/CLOSE
  - Open/Close the disc tray

- **PLAY/PAUSE**
  - To start or interrupt playback

- **STOP**
  - To stop playback

- **IR Sensor**
  - Point the remote control towards this sensor

- **Display**
  - Shows the current status of the DVD Player

- **Mains (AC Power Cord)**
  - Connect to a standard AC outlet

- **Audio Out (Left/Right)**
  - Connect to AUDIO inputs of an amplifier, receiver or stereo system

- **S-Video Out**
  - Connect to S-Video input of a TV

- **CVBS (VIDEO Out)**
  - Connect to CVBS Video input of a TV

- **RGB**
  - Connect to RGB input of a TV

- **OPTICAL (Digital audio out)**
  - Connect to optical AUDIO input of a digital audio equipment

- **COAXIAL (Digital audio out)**
  - Connect to coaxial AUDIO input of a digital audio equipment

- **YPbPr**
  - Connect to YPbPr input of a TV

Caution: Do not touch the inner pins of the jacks on the rear panel. Electrostatic discharge may cause permanent damage to the unit.
**Functional Overview**

**Remote Control**

- **RETURN / TITLE**: To go back to previous menu / show title menu
- **DISC MENU**: Enters the disc contents menu / Switches on or off the playback control mode (for VCD version 2.0 only)
- **OK**: Acknowledge menu selection
- **STOP (■)**: To stop playback
- **PLAY (▶)**: To start playback
- **PAUSE (II)**: To pause playback temporarily / frame-by-frame playback
- **S**: To search or select previous chapter or track
- **STOP (■)**: To stop playback
- **PLAY (▶)**: To start playback
- **PAUSE (II)**: To pause playback temporarily / frame-by-frame playback
- **REPEAT**: Selects various repeat modes
- **REPEAT (A-B)**: Repeats playback a specific section on a disc
- **PREVIEW**: To preview the content of a track or whole disc
- **MUTE**: Enables or disables sound output
- **POWER**: To switch the DVD player to standby mode or ON
- **0-9 numerical key pad**: Selects numbered items in a menu
- **DISPLAY**: Displays information on TV screen during playback
- **SYSTEM MENU**: Access or exit DVD Player's system menu
- **STOP (■)**: To stop playback
- **PLAY (▶)**: To start playback
- **PAUSE (II)**: To pause playback temporarily / frame-by-frame playback
- **REPEAT**: Selects various repeat modes
- **REPEAT (A-B)**: Repeats playback a specific section on a disc
- **PREVIEW**: To preview the content of a track or whole disc
- **MUTE**: Enables or disables sound output

**Helpful Hint:**
Press “STOP” for about 2 seconds to OPEN or CLOSE disc tray.
Getting Started

Step 1: Inserting batteries into the Remote Control

1. Open the battery compartment.
2. Insert two batteries type R06 or AA, following the indications (+ −) inside the compartment.
3. Close the cover.

Using the Remote Control to operate the Player

1. Aim the Remote Control directly at the remote sensor (iR) on the front panel.
2. Do not put any objects between the Remote Control and the DVD Player while operating the DVD Player.

CAUTION!
- Remove batteries if they are exhausted or if the Remote Control is not being used for a long time.
- Do not use old and new or different types of batteries in combination.
- Batteries contain chemical substances, so they should be disposed properly.

Step 2: Setting up the TV

IMPORTANT!
Make sure you have completed all the necessary connections. (See pages 7-8 “Connecting TV”).

1. Turn on the TV and set to the correct video-in channel. You should see the blue Philips DVD background screen on the TV.
   ➜ Usually these channels are between the lowest and highest channels and may be called FRONT, A/V IN, or VIDEO. See your TV manual for more details.
   ➜ Or, you may go to channel 1 on your TV, then press the Channel down button repeatedly until you see the Video In channel.
   ➜ Or, the TV Remote Control may have a button or switch that chooses different video modes.
   ➜ Or, set the TV to channel 3 or 4 if you are using an RF modulator.
2. If you are using external equipment, (e.g. audio system or receiver), turn it on and select the appropriate input source for the DVD Player output. Refer to the equipment owner’s manual for detail.

To deactivate Progressive manually

The progressive scan display present 60 complete frames per seconds, rather than 30 frames per second of interlaced scanning (ordinary normal TV system). With nearly double the number of line, progressive scan offers higher picture resolution and eliminates bothersome motion artifacts those jagged edge on moving objects.

To enjoy the full quality potential offered by progressive scan feature, a progressive scan TV is required. To activate progressive function, refer to “Progressive on pages 28-29.”
Getting Started

Selecting the colour system that corresponds to your TV

This DVD Player is compatible with both NTSC and PAL. In order for a DVD disc to play on this Player, the colour system of the Disc, the TV and the DVD Player should match.

Press SYSTEM MENU.
Press ▼▲ to select ‘Video Setup Page’.
Enter its submenu by pressing OK.
Use the ◀▶▲▼ keys on the Remote Control to navigate in the menu.
Move to 'TV Standard' and press ◀.

To deactivate Progressive manually - cont’d

If the progressive function is activated, but your TV does not support progressive function or YPbPr cable is not connected accordingly, there will be a blank screen.
You can deactivated progressive function as below:
1. Press STANDBY ON on the front panel to switch on the DVD player.
2. Press OPEN/CLOSE on the front panel to open the disc tray.
3. Press numerical key pad ‘1’. ➜ The blue Philips DVD background appears on the TV screen.

PAL – Select this if the connected TV is PAL system. It will change the video signal of a NTSC disc and output in PAL format.

NTSC – Select this if the connected TV is NTSC system. It will change the video signal of a PAL disc (VCD only) and output in NTSC format.

Multi – Select this if the connected TV is compatible with both NTSC and PAL (multi-system). The output format will be in accordance with the video signal of the disc.

Helpful Hints:
- Before changing the current TV Standard setting, ensure that your TV supports the ‘selected TV Standard’ system.
- If there is no proper picture on your TV, wait for 15 seconds for auto recovery.

Changing MULTI to PAL
1. Ensure your TV supports PAL
2. If there is a blank screen on normal TV wait 15 seconds for auto recover

To exit from the menu
Press SYSTEM MENU.
Getting Started

**Step 3: Setting language preference**

You can select your own preferred language settings. This DVD system will automatically switch to the language for you whenever you load a disc. If the language selected is not available on the disc, the disc’s default language will be used instead. The OSD language in the system menu, will remain once selected.

**Setting the OSD Language**

1. Press **SYSTEM MENU**.
2. Press **▼ ▲** to select ‘General Setup’ page.
3. Enter its submenu by pressing **OK**.
4. Use the **◄ ► ▼ ▲** keys on the Remote Control to navigate in the menu. Move to ‘OSD Language’ and press **►**.
5. Select a language and press **OK**.

**To exit from the menu**

Press **SYSTEM MENU**.

---

**Setting the Audio, Subtitle and Disc menu language**

1. Press **STOP** twice then, press **SYSTEM MENU**.
2. Press **▼ ▲** to select ‘Preference Page’.
3. Enter its submenu by pressing **OK**.
4. Press **▲ ▼** to highlight the following in the Preference Page.
   - ‘Audio’ (disc’s soundtrack)
   - ‘Subtitle’ (disc’s subtitles)
   - ‘Disc Menu’ (disc’s menu)
5. Enter its submenu by pressing **►**.
6. Select a language and press **OK**.
7. Repeat steps 4–6 for other language settings.

**To exit from the menu**

Press **SYSTEM MENU**.
Disc Operations

IMPORTANT!
– Depending on the DVD or VIDEO CD, some operations may be different or restricted.
– Do not push on the disc tray or put any objects other than disc on the disc tray. Doing so may cause the disc player malfunction.

Playable Discs
Your DVD Player will play:
- Discs:
  - Digital Video Discs (DVDs)
  - Video CDs (VCDs)
  - Super Video CDs (SVCDs)
  - Digital Video Discs + Recordable (DVD+R)
  - Digital Video Discs + Rewritable (DVD+RW)
  - Compact Discs (CDs)
  - MP3 disc on CD-R(W):
    - Maximum 30 characters display.
    - Supported sampling frequencies: 32 kHz, 44.1 kHz, 48 kHz (MPEG-1)
      16 kHz, 22.05 kHz, 24 kHz (MPEG-2)
    - Supported Bit-rates: 32~256 kbps
      (MPEG-1), 8~160 kbps (MPEG-2) variable bitrates
  - Picture files on CD-R(W):
    - JPEG picture.
  - MPEG-4 disc on CD-R(W):
    - Simple profile
    - Advanced simple profile (640-480)
  - DivX® disc on CD-R(W):
    - DivX 3.11, 4.x and 5.x
    - GMC (Global Motion Compensation) and Q-Pel (Quarter Pixel) not supported

Helpful Hint:
– If you are having trouble playing a certain disc, remove the disc and try a different one. Improper formatted disc will not play on this DVD Player.

This DVD Player can play DivX, MPEG-4, MP3, JPEG, VCD & SVCD files on a personally recorded CD-R/RW disc or commercial CD.
- Maximum files programmable is 24.
- MP3: Maximum supported bitrate is 320kbps or 48KHz.
- DivX: DivX 3.11, 4.x and 5.x comply with this standard, except GMC (Global Motion Compensation) and QP (Quarter Pixel) features.
- MPEG-4: All video codecs that comply with specifications of ISO-MPEG4.
- JPEG: For baseline JPEG, maximum resolution is 5120 x 3840 (beyond this picture will be cropped). For progressive JPEG, maximum resolution is 2048 x 1536 (beyond this, picture will not be displayed).

Region Codes
DVD discs must be labeled for ALL regions or Region 2 in order to play on this Player.
You cannot play Discs that are labeled for other regions.
Look for symbols on your DVD discs.
Disc Operations

IMPORTANT!
If the inhibit icon appears on the TV screen when a button is pressed, it means the function is not available on the current disc or at the current time.

Playing discs
1. Connect the power cords of the DVD Player and TV (and any optional stereo or AV receiver) to a power outlet.
2. Turn on the TV power and set to the correct Video In channel. (See page 13 “Setting up the TV”).
3. Press STANDBY-ON on the DVD Player front panel.
   ➜ You should see the blue Philips DVD background screen on the TV.
4. Press OPEN•CLOSE button to open the disc tray and load in a disc, then press the same button again to close the disc tray.
   ➜ Make sure the label side is facing up. For double-sided discs, load the side you want to play facing up.
5. Playback will start automatically (depending on the disc type).
   ➜ If a disc menu appears on the TV, see “Using the Disc Menu”.
   ➜ If the disc is locked by parental control, you must enter your four-digit password. (See pages 30-31).
6. At any time, simply press STOP to stop playback.

Using the Disc Menu
Depending on the disc, a menu may appear on the TV screen once you load the disc.

To select a playback feature or item
• Use the ◄►▲▼ or numeric keypad (0-9) on the Remote Control, then press PLAY ► to start playback.

To access the menu
• Press DISC MENU on the Remote Control.

Basic playback controls
Unless otherwise stated, all operations described are based on Remote Control use.

Pausing playback (DVD/VCD/CD)
1. During playback, press PAUSE II.
   ➜ Playback will pause and sound will be muted.
2. During pause mode, press ◄► to select the previous or next picture frame.
3. To return to normal playback, press PLAY ►.

Selecting track/chapter (DVD/VCD/CD)
• Press ◄◄►► or use the numeric keypad (0-9) to key in a track/chapter number, then press PLAY ► to start playback.
Disc Operations

**Mute (DVD/VCD/CD/MP3/DivX/MPEG4/JPEG)**

- Press MUTE repeatedly to disable and enable the sound output.

**Resuming playback from the last stopped point (DVD/VCD/CD)**

Resume playback of the last 5 discs if possible, even if the disc was ejected.

- Load one of the last 5 discs.
  → "LOADING" appears.
- Press PLAY ▶ and the disc will be played back from the last point.

To cancel resume mode

- In stop mode, press STOP ■ again.

**Helpful Hint:**
- Resume option may not be available on some discs.

**Zoom (DVD/VCD)**

Zooming allows you to enlarge the video image during playback.

1. Press ZOOM during playback to select the zoom factor.
2. Press ◄►▲▼ to pan across the TV screen.
3. Press ZOOM repeatedly to increase and decrease the zoom factor.

**Repeat (DVD/VCD/CD/MP3)**

You can play a chapter, track, title or entire disc repeatedly.

- Press REPEAT continuously to choose a Repeat mode during playback.

  → **DVD**
  'CHAPTER REPEAT ON/TITLE REPEAT ON/REPEAT OFF' appears on the TV screen.

  → **VCD / CD**
  'REP-ONE/REP-ALL/REPEAT OFF' appears on the TV screen.

  For VCD2.0, SVCD discs:
  – Not available during Playback Control 'ON' (PBC On).

  → **MP3**
  If MP3/JPEG Nav setting is 'WITH MENU':
  'REP-ONE/FOLDER REPEAT/REP-ALL/REPEAT OFF' appears on the TV screen.

  If MP3/JPEG Nav setting is 'NO MENU':
  'REP-ONE/REP-ALL/REPEAT OFF' appears on the TV screen.

**Helpful Hint:**
- Repeat option may not be available on some discs.

**Repeat A-B (DVD/VCD/CD)**

You can play only a specific portion of a Title or Track repeatedly.

1. During playback, press REPEAT A-B as your chosen starting point.
  → 'A TO B SET A' appears on the TV screen.

2. When the disc reaches your selected ending point, press REPEAT A-B again.
  → 'A TO B SET B' appears on the TV screen, and the repeat sequence begins.

3. To resume regular playback, press REPEAT A-B again.
  → 'A TO B CANCELLED' appears on the TV screen.

**Mute (DVD/VCD/CD/MP3/DivX/MPEG4/JPEG)**

- Press MUTE repeatedly to disable and enable the sound output.

**Resuming playback from the last stopped point (DVD/VCD/CD)**

Resume playback of the last 5 discs if possible, even if the disc was ejected.

- Load one of the last 5 discs.
  → "LOADING" appears.
- Press PLAY ▶ and the disc will be played back from the last point.

To cancel resume mode

- In stop mode, press STOP ■ again.

**Helpful Hint:**
- Resume option may not be available on some discs.

**Zoom (DVD/VCD)**

Zooming allows you to enlarge the video image during playback.

1. Press ZOOM during playback to select the zoom factor.
2. Press ◄►▲▼ to pan across the TV screen.
3. Press ZOOM repeatedly to increase and decrease the zoom factor.

**Playback will continue.**
Disc Operations

Display (DVD/VCD)
The Display function allows you to start playback at any chosen time on the disc.

1. During playback, press DISPLAY.
   ➜ The time edit box appears.
2. Press DISPLAY once, use ◀ or ▶ to highlight one of the option and use numeric key pad (0-9) to enter the number of the desired title (track) / chapter.
3. Press DISPLAY twice, use ▶ to highlight the time option and use numeric key pad (0-9) to enter hours, minutes and seconds from left to right in the time edit box.
4. Press OK to confirm selection.
   ➜ Playback starts from the selected time on the disc.
5. Highlight ‘TIME’, then press ▲ or ▼ to view the status of the playing disc.
   For DVD
   ➜ ‘TITLE ELAPSED/ TITLE REMAIN/ CHAP ELAPSED/ CHAP REMAIN’ appears.
   For VCD
   ➜ ‘SINGLE ELAPSED/ SINGLE REMAIN/ TOTAL ELAPSED/ TOTAL REMAIN’ appears.

Searching (DVD/VCD/SVCD/CD/MP3)
Press ◀ or ▶ to select fast reverse (FR) search or fast forward (FF) search respectively.

➔ DVD / MP3
FRx2 → FRx4 → FRx6 → FRx8 → PLAY
FFx2 → FFx4 → FFx6 → FFx8 → PLAY

➔ VCD / SVCD / CD
FRx1 → FRx2 → FRx3 → FRx4 → PLAY
FFx1 → FFx2 → FFx3 → FFx4 → PLAY

Programme Playback (DVD/VCD/CD)

1. In Stop mode, press SYSTEM MENU and press ▼ or ▲ to select ‘General Setup Page’.
2. Select ‘Program’ and set it to ON, then press OK.
   ➜ The ‘Program’ menu appears.
3. Use the ◀ or ▶ keys and numeric keypad (0-9) on the Remote Control to select a preferred programme.
4. Press PLAY to start playback.
   ➜ For DVD, the maximum programmable title or chapter is 16.
   ➜ For VCD/CD, the maximum programmable track is 24.

   ● To erase a selection in Program,
   Use the ◀ or ▶ keys to select the programmed item(s), press OK to delete.

   ● To list out the programmed item(s),
   In Stop mode, press SYSTEM MENU to select ‘Program’ to ON and then press OK.

Slow Motion (DVD/VCD/SVCD)
During playback, press ▲ or ▼ to select slow reverse (SR) and slow forward (SF) respectively.

➔ DVD
1. Press ▲ or ▼ to select the slow reverse and slow forward speed:
   SFx2 → SFx4 → SFx8 → PLAY
   SRx2 → SRx4 → SRx8 → PLAY

➔ VCD / SVCD
1. Press ▲ to select the slow forward speed:
   SFx1 → SFx2 → SFx3 → PLAY

Helpful Hint:
– Slow Reverse is not available in VCD/SVCDs.

Display (DVD/VCD)

The Display function allows you to start playback at any chosen time on the disc.

1. During playback, press DISPLAY.
   ➜ The time edit box appears.
2. Press DISPLAY once, use ◀ or ▶ to highlight one of the option and use numeric key pad (0-9) to enter the number of the desired title (track) / chapter.
3. Press DISPLAY twice, use ▶ to highlight the time option and use numeric key pad (0-9) to enter hours, minutes and seconds from left to right in the time edit box.
4. Press OK to confirm selection.
   ➜ Playback starts from the selected time on the disc.
5. Highlight ‘TIME’, then press ▲ or ▼ to view the status of the playing disc.
   For DVD
   ➜ ‘TITLE ELAPSED/ TITLE REMAIN/ CHAP ELAPSED/ CHAP REMAIN’ appears.
   For VCD
   ➜ ‘SINGLE ELAPSED/ SINGLE REMAIN/ TOTAL ELAPSED/ TOTAL REMAIN’ appears.

Searching (DVD/VCD/SVCD/CD/MP3)
Press ◀ or ▶ to select fast reverse (FR) search or fast forward (FF) search respectively.

➔ DVD / MP3
FRx2 → FRx4 → FRx6 → FRx8 → PLAY
FFx2 → FFx4 → FFx6 → FFx8 → PLAY

➔ VCD / SVCD / CD
FRx1 → FRx2 → FRx3 → FRx4 → PLAY
FFx1 → FFx2 → FFx3 → FFx4 → PLAY

Programme Playback (DVD/VCD/CD)

1. In Stop mode, press SYSTEM MENU and press ▼ or ▲ to select ‘General Setup Page’.
2. Select ‘Program’ and set it to ON, then press OK.
   ➜ The ‘Program’ menu appears.
3. Use the ◀ or ▶ keys and numeric keypad (0-9) on the Remote Control to select a preferred programme.
4. Press PLAY to start playback.
   ➜ For DVD, the maximum programmable title or chapter is 16.
   ➜ For VCD/CD, the maximum programmable track is 24.

   ● To erase a selection in Program,
   Use the ◀ or ▶ keys to select the programmed item(s), press OK to delete.

   ● To list out the programmed item(s),
   In Stop mode, press SYSTEM MENU to select ‘Program’ to ON and then press OK.

Slow Motion (DVD/VCD/SVCD)
During playback, press ▲ or ▼ to select slow reverse (SR) and slow forward (SF) respectively.

➔ DVD
1. Press ▲ or ▼ to select the slow reverse and slow forward speed:
   SFx2 → SFx4 → SFx8 → PLAY
   SRx2 → SRx4 → SRx8 → PLAY

➔ VCD / SVCD
1. Press ▲ to select the slow forward speed:
   SFx1 → SFx2 → SFx3 → PLAY

Helpful Hint:
– Slow Reverse is not available in VCD/SVCDs.
Disc Operations

Special DVD Features

Playing a Title
1. Press RETURN/TITLE.
   → The disc title menu appears on the TV screen.
2. Use ▲▼◄► keys or numeric keypad (0-9) to select a play option.
3. Press OK key to confirm.

Camera Angle
- Press ANGLE repeatedly to select different desired angles.

Changing the Audio Language
For DVD
- Press AUDIO repeatedly to select different audio languages.

Changing the Audio Channel
For VCD
- Press AUDIO to select the available audio channels provided by the disc (LEFT VOCAL, RIGHT VOCAL, LEFT MONO, RIGHT MONO, STEREO).

Subtitles
- Press SUBTITLE repeatedly to select different subtitle languages.

Special VCD & SVCD Features

Playback Control (PBC)
For VCD with Playback Control (PBC) feature (version 2.0 only)
- Press DISC MENU to toggle between ‘PBC ON’ and ‘PBC OFF’.
   → If you select ‘PBC ON’, the disc menu (if available) will appear on the TV.
   → Use the ◄► or the numeric keypad (0-9) to select a play option, then press PLAY► to start playback.
- During playback, pressing RETURN/TITLE will return to the menu screen (if PBC is on).

If you want to skip the index menu and playback directly from the beginning,
- Press DISC MENU key on the remote control to switch to PBC off.

Preview (VCD/SVCD/CD)

For VCD/SVCD
- At stop mode, press PREVIEW on the remote control.
   → The preview menu will be displayed.

1. INTRO
   DVD player will playback every track for few seconds with full screen to obtain a summary of the disc content.
   1. Press numerical key pad ‘1’.
   2. Press STOP to quit previewing.

2. DISC
   This function is used to divide a disc into nine parts by regular intervals and display them on one page to help you preview the whole disc.
   1. Press numerical key pad ‘2’.
   → The preview of 9 track with full screen will appear.
   2. To select other tracks beyond this page, press ◄► or ►►.
   3. Press the numerical key pad to select preferred track.
Disc Operations

3. TRACK
This function is used to divide a single track into nine parts by regular intervals and display them on one page to help you preview the selected track.

1. Press numerical key pad '3'.
   ➜ The preview of one track with 9 parts in a full screen will appear.
2. To select other tracks, press ◀ or ►.
3. Press the numerical key pad to choose the starting point.

4. EXIT
1. Press numerical key pad '4'.

For CD
- At stop mode, press PREVIEW on the remote control.
  ➜ Each track will be played for about 10 seconds.
- For JPEG CD, press PREVIEW to view 9 thumbnail pictures on the TV screen (see page 23).

Playing MP3/DivX/MPEG-4/JPEG/Kodak Picture CD

IMPORTANT!
You have to turn on your TV and set to the correct Video In channel. (See page 13 “Setting up the TV”).

General Operation
   ➜ The data disc menu appears on the TV screen.
2. Use ▲▼ to select the folder and press OK to open the folder.

   DATA CD MENU

3. Press ▲▼ or use the numeric keypad (0-9) to highlight an option.
4. Press OK to confirm.
   ➜ The playback will start from the selected file to the end of the folder.
- During MP3 playback, the selected track name and current playing time will be displayed on the 'File Name' column.
- Press DISC MENU on the remote control to turn on/off the menu.
- If the ‘MP3/JPEG Nav’ setting is set to NO MENU the DATA CD MENU will not appear on the TV screen (see page 31).

Helpful Hint:
- For Kodak Picture CD, playback will start automatically without a disc menu and press STOP ■ to display thumbnails of 9 pictures.
Disc Operations

Playback selection
During playback, you can:
● Press ◄►/ ▶▶ to select another file in the current folder.
● Use ◄► ◄◄ on the remote to rotate/flip the picture files.
● Press ▼ to pause playback.

Special MP3/JPEG/DivX features

Playback with multi-angles (JPEG)
● During playback, press ◄ ► ◄◄ ▶▶ to rotate the picture on the TV screen.
   ►: flip the picture vertically
   ◄: rotate the picture anti-clockwise
   ▶: rotate the picture clockwise

Scan Effect (JPEG)
● Press ANGLE repeatedly to choose different scan effect.
   ➜ Various scan effect appears on the top left hand corner on the TV screen.

Playback speed control (MP3)
● Press ◄►/ ▶▶ repeatedly to play backward/forward at different speed.
● You can press ◄►/ ▶▶ ▼ to change the tracks.

JPEG and MP3 simultaneous playback
1 Select a MP3 track and press AUDIO.
   ➜ ‘Music Slide Show’ appears on the TV screen.
2 Press ◄◄/ ▶▶ to select a picture file, then press OK.
   ➜ The picture will be played back in sequence together with MP3 music.
3 To quit simultaneous playback, press STOP.
   ➜ The picture and MP3 music playback will stop.

Helpful Hints:
– If the disc menu doesn’t appear on the TV screen, switch ‘MP3/JPEG Navigator’ to ‘With Menu’ (see page 31).
– During Music slide show playback, all buttons are disabled except PLAY, PAUSE, STOP, OPEN/CLOSE and POWER.
DVD Menu Options

Basic Operations
1. Press SYSTEM MENU in the STOP mode to enter the Setup Menu.
2. Press OK to enter the next level submenu or confirm your selection.
3. Press ▶◀ to enter the submenu or return to the previous menu.
4. Press ▲▼ to highlight the desired menu.
5. Press SYSTEM MENU to quit the setup menu.

➜ The settings will be stored in the player’s memory even if the player is switched off.

General Setup menu

Follow the steps below:

1. Press SYSTEM MENU to enter the setup menu.
2. Press ▲▼ to select the ‘General Setup’ page.
3. Press OK to confirm.

NOTE:
Some of the features in the DVD Menu Options are described in “Getting Started”.

Screen Saver

1. Press ▲▼ to highlight ‘Screen Saver’.
2. Enter its submenu by pressing ▶◀.
3. Move the cursor by pressing ▲▼ to highlight the selected item.
   → Off: Screen saver is disabled.
   → On: In STOP or No DISC mode, if no actions are performed within 5 minutes, the screen saver will be activated.
4. Press OK, then press ◄ to return to General Setup Page.

Smart Power
When in ‘Stop’ or ‘No Disc’ mode, the DVD Player will switch to standby mode after 15 minutes of inactivity for energy saving.

1. Press ▲▼ to highlight ‘Smart Power’.
2. Enter its submenu by pressing ▶◀.
3. Move the cursor by pressing ▲▼ to highlight the selected item.
   → Off: Smart Power is disabled.
   → On: In STOP or No DISC mode, if no actions are performed for 15 minutes, the smart power will be activated.
4. Press OK, then press ◄ to return to General Setup Page.
Press ▲▼ to highlight ‘Disc Lock’.
2. Enter its submenu by pressing ►.
3. Move the cursor by pressing ▲▼ to highlight the selected item.
   ➔ Lock: Select this option and the player will lock the current playing disc.
   ➔ Unlock: Select this option and the player will unlock the current playing disc.
4. You will need to input the password to confirm unlock selection. The initial password is 1234 (see ‘Password’ on pages 30-31).

1. Press OK, then press ◄ to return to General Setup Page.

Helpful Hint:
– When a specific locked disc is loaded, a prompt menu will appear.

Press ▲▼ to highlight ‘Program’.
2. Enter its submenu by pressing ►.
   ➔ On: Select this option to activate program function.
3. Press OK to enter to ‘Program’ menu (see ‘Program Playback’ on page 19).

Philips provide you the DivX® VOD (Video On Demand) registration code that allows you to rent and purchase videos using the DivX® VOD service. For more information, visit www.divx.com/vod.

Press ▲▼ to highlight ‘DivX(R) VOD’.
2. Press OK on the remote control.
   ➔ The registration code will appear.
DVD Menu Options

Audio Setup Menu

The options included in Audio Setup menu are: 'Downmix', 'Digital Output', 'LPCM Output', 'Sound Mode', 'Reverb Mode' and 'D.R.C'.

1. Use the registration code to purchase or rent the videos from DivX® VOD service at www.divx.com/vod. Follow the instructions and download the video onto a CD-R for playback on this DVD player.

Helpful Hint:
- All the downloaded videos from DivX® VOD can only be played back on this DVD player.

Digital Output

Set the Digital output according to your optional audio equipment connection.

1. Press SYSTEM MENU.
2. Press ▲▼ to select the ‘Audio Setup’ page.
3. Press OK to confirm.

Downmix

1. Press the ▲▼ keys to highlight 'Downmix'.
2. Enter its submenu by pressing ▶.

Helpful Hint:
- If DIGITAL OUTPUT is set to 'All', all audio settings except MUTE are invalid.
DVD Menu Options

Sound Mode

The digital sound effect allows you to select from various pre-set modes that control the frequency bands of sound to optimise certain musical styles. It enhances the excitement and enjoyment of your favourite music.

1. Press ▲▼ to highlight ‘Sound Mode’.
2. Enter its submenu by pressing ►.
3. Move the cursor by pressing ▲▼ to highlight the selected item.
   ➜ None, Rock, Pop, Ballad, Dance, Classic
4. Press OK, then press ◄ to return to Audio Setup Page.

LPCM Output

If you connect the DVD Player to a PCM compatible receiver via the digital terminals, such as coaxial or optical etc, you may need to adjust ‘LPCM Output’. Discs are recorded at a certain sampling rate. The higher the sampling rate, the better the sound quality.

1. Press ▲▼ to highlight ‘LPCM Output’.
2. Enter its submenu by pressing ►.
3. Move the cursor by pressing ▲▼ to highlight the selected item.
   ➜ 48K: Playback a disc recorded at the sampling rate of 48kHz.
   ➜ 96K: Playback a disc recorded at the sampling rate of 96kHz.
4. Press OK, then press ◄ to return to Audio Setup Page.

Helpful Hints:

Most discs are recorded at the sampling rate of 48kHz.
If ‘96K’ is selected, ensure that receiver or amplifier supports 96kHz digital signals.

Reverb Mode

Reverb mode provides a virtual surround sound experience using just two speakers.

1. Press ▲▼ to highlight ‘Reverb Mode’.
2. Enter its submenu by pressing ►.
3. Move the cursor by pressing ▲▼ to highlight the selected item.
   ➜ Off, Studio, Movie, Stadium, Church, Club
4. Press OK, then press ◄ to return to Audio Setup Page.

Helpful Hints:

Most discs are recorded at the sampling rate of 48kHz.
If ‘96K’ is selected, ensure that receiver or amplifier supports 96kHz digital signals.
**DVD Menu Options**

**D.R.C. (Dynamic Range Control)**
High volume outputs are softened, enabling you to watch your favourite action movie without disturbing others at night.

1. Press ▲▼ to highlight ‘D.R.C’.
2. Enter its submenu by pressing ►.
3. Move the cursor by pressing ▲▼ to highlight the selected item.
   - **Off**: Audio with uncompressed dynamic range.
   - **On**: Audio with fully compressed dynamic range.
4. Press OK, then press ◄ to return to Audio Setup Page.

**TV Display**
Set the aspect ratio of the DVD Player according to the TV you have connected.

1. Press ▲▼ to highlight ‘TV Display’.
2. Enter its submenu by pressing ►.
3. Move the cursor by pressing ▲▼ to highlight the selected item.

- **16:9**
  - If you have a wide-screen TV.
- **4:3 Letter Box**
  - If you have a normal TV. In this case, a wide picture with black bands on the upper and lower portions of the TV screen will be displayed.
- **4:3 Pan Scan**
  - If you have a normal TV and want both sides of the picture to be trimmed or formatted to fit your TV screen.
4. Press OK, then press ◄ to return to Video Setup Page.

**Video Setup Menu**

1. Press SYSTEM MENU.
2. Press ▲▼ to select the ‘Video Setup’ page.
3. Press OK to confirm.

- **TV Standard**
- **TV Display**
- **Closed Captions**
- **Video Output**
- **Progressive**
- **Smart Picture**

**4:3 PS**
- **4:3 LB**
- **16:9**

1. Press ▲▼ to highlight ‘TV Display’.
2. Enter its submenu by pressing ►.
3. Move the cursor by pressing ▲▼ to highlight the selected item.

- **16:9**
  - If you have a wide-screen TV.
- **4:3 Letter Box**
  - If you have a normal TV. In this case, a wide picture with black bands on the upper and lower portions of the TV screen will be displayed.
- **4:3 Pan Scan**
  - If you have a normal TV and want both sides of the picture to be trimmed or formatted to fit your TV screen.
4. Press OK, then press ◄ to return to Video Setup Page.
DVD Menu Options

Closed Captions

Closed captions are data that are hidden in the video signal on specific discs, invisible without a special decoder. The difference between subtitles and closed captions is that subtitles are intended for hearing persons and closed captions are for the hearing impaired. For example, closed captions show sound effects (e.g., “phone ringing” and “footsteps”), while subtitles don’t.

Before you select this function, please ensure that the disc contains closed captions information and your TV set also has this function.

1. Press ▲▼ to highlight ‘Closed Captions’.
2. Enter its submenu by pressing ►.
3. Move the cursor by pressing ▲▼ to highlight the selected item.
   - On: Enable Closed Captions.
   - Off: Disable Closed Captions.
4. Press OK, then press ◄ to return to Video Setup Page.

Video Output

Video Output selection enables you to choose the type of video output suitable for your DVD player.

1. Press ▲▼ to highlight ‘Video Output’.
2. Enter its submenu by pressing ►.
3. Move the cursor by pressing ▲▼ to highlight the selected item.
   - RGB: If you connected the video output to a TV using RGB jack.
   - S-Video: If you have connected the S-Video output to a TV.
   - YPbPr: If you have connected the YPbPr output to a TV.
4. Press OK, then press ◄ to return to Video Setup Page.

Progressive

To select this item you must set ‘Video Output’ to YPbPr and ensure that your TV has progressive scan.

1. Press ▲▼ to highlight ‘Progressive’.
2. Enter its submenu by pressing ►.
3. Move the cursor by pressing ▲▼ to highlight the selected item.
   - On: Enable Progressive.
   - Off: Disable Progressive.
4. Press OK, then press ◄ to return to Video Setup Page.
DVD Menu Options

Helpful Hints:
— If a blank/distorted TV screen appears, wait for 15 seconds for auto recover.
— To deactivate the progressive function, refer to the hint menu displayed on the TV screen or see pages 13 and 14.

Smart Picture
In this menu, you can choose a picture setting from a fixed set of ideal predefined picture settings.

1 Press ▲▼ to highlight ‘Smart Picture’.
2 Enter its submenu by pressing ◄.
3 Move the cursor by pressing ▲▼ to highlight the selected item.
   ➔ Standard: select the standard picture setting.
   ➔ Bright: make the TV picture brighter.
   ➔ Soft: make the TV picture softer.
   ➔ Personal: achieve the colour effect set in the ‘Brightness’, ‘Contrast’, ‘Hue’ and ‘Saturation’ menu.
4 Press OK, then press ◄ to return to Video Setup Page.

Brightness
You can personalise your picture colour by adjusting brightness, contrast, hue and saturation.

1 Press ◄► to highlight ‘Brightness’.
2 Press ◄ to open the level bar.
3 Press ◄► to decrease or increase the brightness level.
4 Press OK to exit.
5 Repeat steps 1 - 4 for adjusting the contrast, hue and saturation feature.

Preference Setup Menu

1 Press STOP twice.
2 Press SYSTEM MENU to enter the setup menu.
3 Press ▲▼ to select the ‘Preference’ page.
4 Press OK to confirm.
Parental

Some DVDs may have a parental level assigned to the complete disc or to certain scenes on the disc. This feature lets you set a playback limitation level. The rating levels are from 1 to 8 and are country dependent. You can prohibit the playing of certain discs that are not suitable for your children or have certain discs played with alternative scenes.

- VCD, SVCD, CD have no level indication, so parental control function has no effect on these type of discs. This applies to most illegal DVD discs.

1. Press ▲▼ to highlight ‘Parental’.
2. Enter its submenu by pressing ►.
3. Use ▲▼ to highlight a rating level for the disc inserted.
   - DVDs that are rated above the level you selected will not play unless you enter your four-digit password and choose a higher level rating.
   - To disable Parental controls and have all Discs play, choose ‘No Parental’.
4. Press OK, then press ◄ to return to Preference Setup Page.

Helpful Hint:
- Some DVDs are not encoded with a rating though the movie rating may be printed on the Disc cover. The rating level feature does not work for such Discs.

Rating explanations

1-2 G
- General Audience; recommended as acceptable for viewers of all ages.

3 PG
- Parental Guidance suggested.

4 PG13
- Material is unsuitable for children under age 13.

5-6 PG-R
- Parental Guidance - Restricted; recommended that parents restrict children under 17 from viewing or allow to view only when supervised by a parent or adult guardian.

7 NC-17
- No children under age 17; not recommended viewing for children under age 17.

8 ADULT
- Mature material; should be viewed only by adults due to graphic sexual material, violence or language.

NO PARENTAL
- It will play all discs.

Password

This feature is used for Parental Control. Enter your four digit password when a hint is displayed on the screen. The default password is 1234.

1. Press ▲▼ to highlight ‘Password’.
2. Enter its submenu by pressing ►.
3. Press OK to open the password ‘Change’ page.
**Default**

Setting the 'Default' function will reset all options and your personal settings to the factory defaults and all your personal settings will be erased.

1. Press ▲▼ to highlight ‘Default’.
2. Highlight RESET by pressing ▶.
3. Press OK, then press ◀ to return to Preference Setup Page.

---

**Caution!**

- When this function is activated, all settings will be reset to factory defaults except ‘Parental’ and ‘Password’.

**MP3/JPEG Navigator**

This feature allows you to select alternate settings when you playback picture CD (JPEG/DivX) and MP3 CD.

1. Press ▲▼ to highlight ‘MP3/JPEG Nav’.
2. Enter its submenu by pressing ▶.
3. Move the cursor by pressing ▲▼ to highlight the selected item.
   - **No Menu**: playback all pictures (JPEG/DivX) or MP3 music in sequence automatically without menu.
   - **With Menu**: playback pictures (JPEG/DivX) or MP3 music in the selected folder with menu.
4. Press OK, then press ◀ to return to Preference Setup Page.

**Helpful Hint:**

- **MP3/JPEG Nav** can be set only in disc recorded with menu and may not be available on some discs eventhough it is set to ‘WITH MENU’.

---

**Password Change**

1. Enter the existing 4 digit code.
2. Enter the new 4-digit code.
3. Enter the new 4-digit code a second time to confirm.
   - The new 4 digit code will now take effect.
4. Press OK, then press ◀ to return to Preference Setup Page.

**Helpful Hints:**

- If the password has been changed, the parental and disc lock code will also be changed. The default password won’t take effect.
- To reset the password to the default settings (1234), press STOP key four times.

---

**Default Settings**

- AUDIO
- SUBTITLE
- DISC MENU
- PARENTAL
- PASSWORD
- DEFAULT
- MP3/JPEG NAV

---

**Helpful Hint:**

- If the password has been changed, the parental and disc lock code will also be changed. The default password won’t take effect.
- To reset the password to the default settings (1234), press STOP key four times.

---

**Caution!**

- When this function is activated, all settings will be reset to factory defaults except ‘Parental’ and ‘Password’.

### Troubleshooting

**WARNING**
Under no circumstances should you try to repair the system yourself, as this will invalidate the warranty. Do not open the system as there is a risk of electric shock.

If a fault occurs, first check the points listed below before taking the system for repair. If you are unable to remedy a problem by following these hints, consult your dealer or Philips for help.

<table>
<thead>
<tr>
<th>Problem</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>No power</td>
<td>– Check if the AC power cord is properly connected.</td>
</tr>
<tr>
<td></td>
<td>– Press the STANDBY ON on the front of the DVD system to turn on the power.</td>
</tr>
<tr>
<td>No picture</td>
<td>– Refer to your TV's manual for correct Video In channel selection. Change the TV channel until you see the DVD screen.</td>
</tr>
<tr>
<td></td>
<td>– Check if the TV is switched on.</td>
</tr>
<tr>
<td>Distorted picture</td>
<td>– Sometimes a small amount of picture distortion may appear depending on the disc being played back. This is not a malfunction.</td>
</tr>
<tr>
<td>Completely distorted picture or black/white picture with DVD</td>

<tr>
<td></td>
<td>– If you have recorded a Picture CD or MP3 CD yourself, ensure that your disc contains at least 10 pictures or 5 MP3 tracks.</td>
</tr>
<tr>
<td></td>
<td>– Region code incorrect.</td>
</tr>
<tr>
<td>Picture freezes momentarily during playback</td>
<td>– Check the disc for fingerprints/scratches and clean with a soft cloth wiping from centre to edge.</td>
</tr>
<tr>
<td>No return to start-up screen when disc is removed</td>
<td>– Reset the unit by switching the player off, then on again.</td>
</tr>

### Troubleshooting

<table>
<thead>
<tr>
<th>Problem</th>
<th>Solution</th>
</tr>
</thead>
</table>
| The player does not respond to the Remote Control     | – Aim the Remote Control directly at the sensor on the front of the player.  
|                                                        | – Reduce the distance to the player.                                     
|                                                        | – Replace the batteries in the Remote Control.                          
|                                                        | – Re-insert the batteries with their polarities (+/- signs) as indicated. |
| Buttons do not work                                     | – To completely reset the player, unplug the AC cord from the AC outlet for 5-10 seconds. |
| Player does not respond to some operating commands during playback. | – Operations may not be permitted by the disc. Refer to the instructions of the disc jacket. |
| DVD Player cannot read CDs/DVDs                        | – Use a commonly available cleaning CD/DVD to clean the lens before sending the DVD Player for repair. |
| Menu items cannot be selected                         | – Press STOP twice before selecting System Menu.                        
|                                                        | – Depending on the disc availability, some menu items cannot be selected. |
| Unable to play DivX movies                             | – Check that the DivX file is encoded in 'Home Theater' mode with DivX 5.x encoder. |

If you are unable to remedy a problem by following these hints, consult your dealer or service center (HOTLINE).
Glossary

**Analog**: Sound that has not been turned into numbers. Analog sound varies, while digital sound has specific numerical values. These jacks send audio through two channels, the left and right.

**Aspect ratio**: The ratio of vertical and horizontal sizes of a displayed image. The horizontal vs. vertical ratio of conventional TVs is 4:3, and that of wide-screens is 16:9.

**Audio Out Jacks**: Jacks on the back of the DVD System that send audio to another system (TV, Stereo, etc.).

**Bit Rate**: The amount of data used to hold a given length of music; measured in kilobits per second, or kbps. Or, the speed at which you record. Generally, the higher the bit rate, or the higher the recording speed, the better the sound quality. However, higher bit rates use more space on a Disc.

**Chapter**: Sections of a picture or a music piece on a DVD that are smaller than titles. A title is composed of several chapters. Each chapter is assigned a chapter number enabling you to locate the chapter you want.

**Component Video Out Jacks**: Jacks on the back of the DVD System that send high-quality video to a TV that has Component Video In jacks (R/G/B, Y/Pb/Pr, etc.).

**Disc menu**: A screen display prepared for allowing selection of images, sounds, subtitles, multi-angles, etc recorded on a DVD.

**Digital**: Sound that has been converted into numerical values. Digital sound is available when you use the DIGITAL AUDIO OUT COAXIAL or OPTICAL jacks. These jacks send audio through multiple channels, instead of just two channels as analog does.

**DivX 3.11/4.x/5.x**: The DivX codec is a patent-pending, MPEG-4 based video compression technology, developed by DivXNetworks, Inc., that can shrink digital video to sizes small enough to be transported over the internet, while maintaining high visual quality.

**Dolby Digital**: A surround sound system developed by Dolby Laboratories containing up to six channels of digital audio (front left and right, surround left and right, center and subwoofer).

**JPEG**: A very common digital still picture format. A still-picture data compression system proposed by the Joint Photographic Expert Group, which features small decrease in image quality in spite of its high compression ratio.

**MP3**: A file format with a sound data compression system. "MP3" is the abbreviation of Motion Picture Experts Group 1 (or MPEG-1) Audio Layer 3. By using MP3 format, one CD-R or CD-RW can contain about 10 times as much data volume as a regular CD can.

**Multichannel**: DVD is specified to have each sound track constitute one sound field. Multichannel refers to a structure of sound tracks having three or more channels.

**Parental Control**: A function of the DVD to limit playback of the disc by the age of the users according to the limitation level in each country. The limitation varies from disc to disc; when it is activated, playback will be prohibited if the software’s level is higher than the user-set level.

**PCMC (Pulse Code Modulation)**: A system for converting analog sound signal to digital signal for later processing, with no data compression used in conversion.

**Playback control (PBC)**: Refers to the signal recorded on video CDs or SVCDs for controlling reproduction. By using menu screens recorded on a Video CD or SVCD that supports PBC, you can enjoy interactive-type software as well as software having a search function.

**Progressive Scan**: It displays all the horizontal lines of a picture at one time, as a signal frame. This system can convert the interlaced video from DVD into progressive format for connection to a progressive display. It dramatically increases the vertical resolution.

**Region Code**: A system for allowing discs to be played back only in the region designated beforehand. This unit will only play discs that have compatible region codes. You can find the region code of your unit by looking on the product label. Some discs are compatible with more than one region (or ALL regions).

**S-Video**: Produces a clear picture by sending separate signals for the luminance and the color. You can use S-Video only if your TV has S-Video In jack.

**Title**: The longest section of a picture or music feature on DVD, music, etc., in video software, or the entire album in audio software. Each title is assigned a title number enabling you to locate the title you want.

**Video Out Jack**: Jack on the back of the DVD System that sends video to a TV.
