Product highlights

Wireless PC Music Link

Stream music from your PC to your audio system in high quality. Listen on your audio system to music files stored on the PC. Select songs from your music collection according to artist, album or genre.

Central music enjoyment

Keep your music collection centrally stored on your PC and enjoy it wirelessly on your audio system.

Browse music

Browse, select and play music from your music collection on your PC. The remote control gives you direct interactive access to the PC music you want to play on the audio system.

Maximum choice of music

Digital distribution offers a convenient way to access favourite music at any time. With content protected with Windows Media DRM 10 even greater flexibility and choice is offered. Windows Media DRM 10 ensures enjoyment and greater flexibility and choice by allowing you to acquire and/or transfer your subscription content to the devices of your choice.

Music from Home Network

Add new possibilities to your home network and extract music from it to play on your audio system. Interact with your music collection to find the music that best fits your mood.

Select music collection

Music processing

The digital music is sent in digital format to your music receiver and processed via the digital sound processor to give the best sound quality on your audio system.

Robust wireless connection

The wireless standard means that no wires need to be installed between your PC and consumer electronics devices. The wireless standard ensures a robust and secure connection with optimal bandwidth availability for high-quality sound transmission.

WMA-DRM and MP3 support

Store your music collection and downloaded songs on your PC in one of the many supported audio formats. Then playback on your audio system. Playback of WMA, WMA-DRM and MP3 music formats is supported

PC upgradeable

The product is capable of benefiting from new and improved functionality via software upgrades. Check via the broadband internet connection for the availability of new software versions. You can easily decide if you want to upgrade and enjoy even more features. Stay up-to-date with new and improved product functionality via the website and upload it using the software supplied.

Blue backlight LCD

Local blue backlight LCD display facilitates easy navigation through your music collection.
