• Boost coffee crema and body

Ease of cleaning and maintaining
• Always a clean machine thanks to auto-clean and descaling
• Hygienic milk frothing thanks to automated dual cleaning
• Easy cleaning thanks to removable brewing group

High comfort is part of the experience
• Proven hygiene with the patented steam cleaning carafe
Super-automatic espresso machine
Integrated milk jug & frother Stainless steel

Highlights

100% ceramic grinders
This espresso machine is equipped 100% ceramic grinders. Saeco uses ceramic grinders because of their consistent grind without overheating the coffee bean for an impeccable espresso. Ceramic also ensures long-lasting performance and a totally silent operation.

8 step adjustable grinders
Different coffee blends require different levels of granularity for the full flavor to unfold. The grind granularity of this espresso machine can be adjusted in 8 settings, from the finest grind, for a full bodied espresso, to the coarsest, for a lighter coffee.

Dual chamber milk carafe
Enjoy your milk specialties fully automated with the patented milk carafe with dual chamber technology. Simply pour milk into the carafe, plug it into the machine and select your coffee drink. With the dual chamber technology you will always enjoy professional coffee drinks with dense, long-lasting milk froth at the ideal temperature from a constant splash-free flow of milk.

6 user profiles
This Saeco espresso machine comes with 6 customizable profiles that memorize your personal preference for different coffee drinks. This makes it very easy to get a perfect tailor-made cup of coffee although you are not the only one using the machine.

Removable brewing group
The brewing group, a Saeco invention, is the heart of our espresso machines, ensuring automation. The brewing group is, depending on the model, easily accessible from the front or side. It can be removed effortlessly for easily cleaning by rinsing under the tap ensuring maximum hygiene.

Automatic dual cleaning carafe
This Saeco espresso machine comes with a fully automated dual clean function for its milk carafe. The dual cleaning uses two independent steam cycles to swiftly rinse your milk carafe after each coffee drink you prepare, for a fresh milk drink everytime. Hygienic milk frothing was never this easy.

Auto cleaning and descaling
Saeco designed this espresso machine to automatically clean its coffee circuit with water upon starting up or switching off of the machine, this delivers a great, fresh taste with each cup of coffee. Regular descaling prolongs your espresso machine’s life. This machine will not only prompt when descaling is needed, the automated descaling process will start on your machine and guides you with clear on-screen messages when you have to intervene. Descaling has never been so easy!
Specifications
